April 26, 2013

The faculty, staff, and students of the Alan G. MacDiarmid NanoTech Institute at The University of Texas at Dallas welcome the 2013 class of NanoExplorers. We had almost 200 highly qualified applicants this summer. These applications were carefully reviewed by a panel of mentors and applicants were ranked based on the strength of their recommendations, and fit within available research programs based on responses to the questionnaire. Those invited to participate are listed below. Invited applicants will receive a letter in the coming week that gives further instructions for participating in the program. We thank everyone who applied for their interest in our program.
